

How to become a Professional Cyber Security Expert

By Janith Malinga

- Find a mentor
- Read and understand concepts from the scratch
- Listen and speak
- Get hands dirty
- Learn coding and automate stuff
- Go opensource
- Let people see what you know
- Lets start

Tasks

Find a Mentor

- He should be an expert in the field
- Learn how he went there
- Listen to what he say

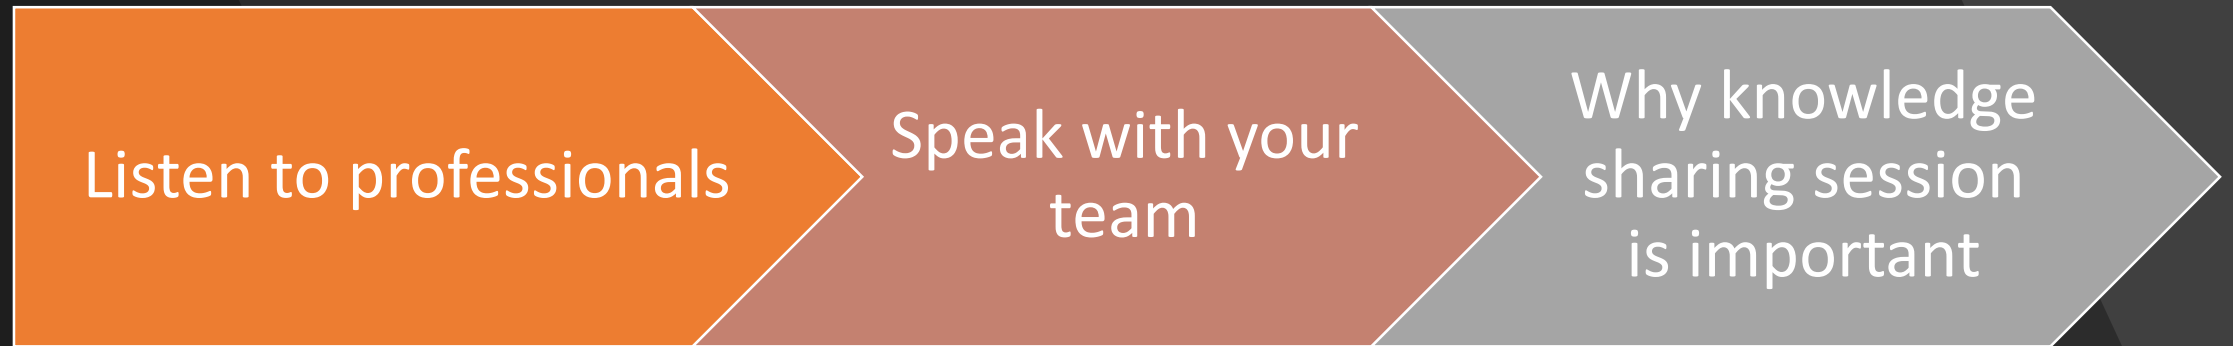

Books

Blogs

<https://tools.ietf.org/>

Read and
understand
concepts from
the scratch

Listen and speak

Get hands dirty

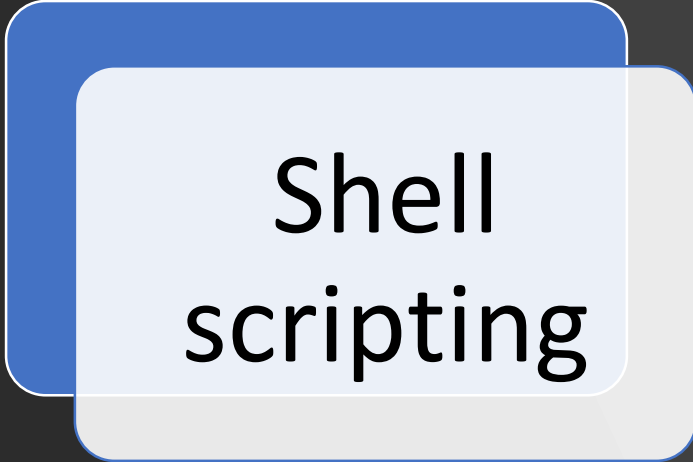

Learn coding

The Python icon consists of two overlapping rounded rectangles. The front rectangle is light blue with rounded corners and contains the word "Python" in black text. The back rectangle is a slightly darker blue, also with rounded corners, and is positioned behind the front one.

Python

The Powershell icon consists of two overlapping rounded rectangles. The front rectangle is light blue with rounded corners and contains the word "Powershell" in black text. The back rectangle is a slightly darker blue, also with rounded corners, and is positioned behind the front one.

Powershell

The Shell scripting icon consists of two overlapping rounded rectangles. The front rectangle is light blue with rounded corners and contains the text "Shell scripting" in black text, with "Shell" on the top line and "scripting" on the bottom line. The back rectangle is a slightly darker blue, also with rounded corners, and is positioned behind the front one.
